

UGI Utilities, Inc. – Electric Division
Request for Proposal
July 1, 2010

1. UGI is seeking quotes for supplying the following packages of energy for its Default Service supplies for its Group Two customer group. Bids must conform to the standards approved by the Pennsylvania Public Utility Commission (PUC) in UGI's Default Service Supply filing (Docket No. P-2008-2022931).
2. All bids must remain open until the end of the business day following submission to UGI to allow the Pennsylvania PUC time to review and approve the winning bids.
3. All bids must be submitted by e-mail to ugirfp@ugi.com by **July 22, 2010 at 10:00 a.m. E.T.**
4. Bidders are free to submit bids for as many months as desired. The individual blocks should be priced separately. For determining the winning bidder, each block will be evaluated and awarded individually.
5. Supplies will be physical firm.
6. The EEI or ISDA Contract between UGI and the counter party will control all transactions completed under this RFP.
7. Winning bids will be determined by price, subject to the provision no one supplier can supply more than one-third of UGI's expected annual requirements for a customer group. In the event two or more bids are received that contain identical prices, the ties will be broken by selecting the bid of the counter party that is otherwise providing the least amount of power to the customer group during the supply period in question. If this method does not break the tie, the winning bidder will be chosen at random by Pace Global Energy Services, LLC.
8. All bids must be submitted in U.S. dollars.

9. **Energy Requested**

Delivery Point	PJM Western Hub	
Supply Type	7x24 (Around the Clock) physical firm	
Term of Delivery and Quantity		
Group 2	September 2010	5 Mw
