

## POOL FORMATION LETTER

Dear UGI,

*(Marketer's name)* has determined that several of its customers which transport natural gas on UGI's system have rate classes and work day control meter read dates which make them eligible to form a new voluntary customer billing pool as specified under UGI tariff provisions. UGI should have agency letters on file from these customers which authorize *(marketer's name)* as being the agent for pooling, nominating, and purchasing natural gas. Therefore, consider this letter an authorization to begin serving the following customers in the indicated pool structures beginning with the next practical meter reading sequence and communicate this date to *(marketer's name)* at *(marketer's phone number)*:

<u>Customer</u>	<u>Location</u>	<u>Account #</u>	<u>Work Day Control</u>	<u>Rate Class</u>
Customer A	Reading	777-777-7777-77	20	Rate DS
Customer B	Lancaster	333-333-3333-33	20	Rate DS
etc.	etc.	etc.	etc.	etc.
